Art Unit: 1725

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-11, drawn to a method of welding.

Group II, claim(s) 12-14, drawn to an apparatus for welding.

Group III, claim(s) 15-19, drawn to an initial centering module.

Group IV, claim(s) 20-23, drawn to a centering and welding module.

2. The inventions listed as Groups I, II, III, and IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Claim 12 is either obvious over or anticipated by US 2,084,889. Accordingly the special technical feature, initial centering module and centering and welding module, does not provide a contribution over the prior art, and no single general inventive concept exists. Therefore, the restriction is appropriate.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
